Statistics of Staff Employed under the Government of West Bengal

(As on 31st March, 1967)

Collection and compilation of statistics of staff employed under the Government of West Bengal has been one of the regular functions of the State Statistical Bureau. This is the 20th Report on Statistics of Staff employed under the Government of West Bengal. The report presents the employment position as on 31st March, 1967.

2. As in previous years, schedules were sent out through mail and information about sex, tenure of service, category, pay, emoluments, etc. of employees were collected. Response from most of the offices has been generally satisfactory. There has, however, been a few defaulters and hence the report does not give a full and complete picture, representing the statistics of the responding offices only.

3. The staff statistics report is usually prepared before the Budget Session of the State Assembly. This year the report could not be prepared in time. The main reason for this is that returns for about 6 per cent of offices were not received till the end of December, 1967 which was the closing date for receipt of returns. A report of this nature is not of much use if it is not based on a complete coverage of returns. Efforts were, therefore, continued to secure the returns not only through a series of routine correspondences, but also by personal contacts and through correspondences at higher level. This undoubtedly yielded some results. But even on the 15th April on which date the work had ultimately to be closed, the returns were not received from as many as 44 offices. This lack of complete coverage has undoubtedly reduced the utility of the report to a great extent. But since the work of the next year has to be taken up no further waiting was possible for the receipts of the statements for the year under discussion. The list of the offices which could not be covered by the report due to non-receipt till 15.4.68 is given in Appendix—C. If the staff position of these offices is taken to be the same as during 1966, then the total number of employees under the Government of West Bengal on 31.3.67 comes to 2,62,518 in place of 2,54,565, shown in this report for the responding offices. The total number of staff in posts was 2,55,066 on this date in 1966.

4. There has been no change in concepts and definitions of terms used last year. As before, mainly on account of inclusion of persons on leave and suspension, the number of persons shown under a particular category does not always represent the total number of posts actually sanctioned.

5. The total number of employees on 31.3.67 for the offices which submitted returns till 15.4.68 according to categories and tenure of service is shown in the table below:

**TOTAL NUMBER OF PERSONS EMPLOYED BY THE GOVERNMENT

6. The term "Others" in column (1) refer to the staff employed on part-time, piece-rate, contingent, work-charged and contract basis. Out of the total staff 37 per cent were reported permanent, 1 per cent, quasi-permanent, 49 per cent temporary and the rest were reported to be employed otherwise. Looking into the breakups, however, it would be found that 5670 out of a total gazetted staff of 7942 i.e., about 71 per cent were permanent, amongst the non-gazetted superior clerical staff 13,380 out of 44,447 employees, i.e. about 30 per cent were permanent and amongst the non-gazetted non-clerical superior staff 60102 out of 121923 employees, i.e. about 49 per cent were permanent. Amongst the non-gazetted inferior staff 14060 out of 80253 employees or about 18 per cent were permanent. It may be noticed that out of a total staff of 254565 about 3 per cent were gazetted, 17 per cent non-gazetted superior clerical, 48 per cent non-gazetted superior non-clerical and the rest 32 per cent were inferior staff.

7. Table 0.1 shows the percentages of permanent staff amongst the different categories of employees during the last five years:

12. It will be seen from the above table that, except for allowances, only 1,69,263 employees out of a total 2,54,565 i.e., 66.49 per cent, would have received Rs. 76 and above per month, whereas, the number as a result of granting allowance, etc., came up to 2,39,019 or 93.89 per cent, of the total. Similarly, while 1,29,837 or only 51.00 per cent. would have received Rs. 101 and above, without allowances, the number was 2,26,829 or 89.10 percent. of the total on the basis of total emoluments, similar was the position in respect of other groups also.

13. The distribution of employees according to basic pay group in relation to other financial aspects of pay is shown in table 0.5 below:

In Calcutta the percentage was 6.7. It would be noticed from column (6) that 30.7 per cent of the total employees of both sexes were posted in Calcutta and 7.9 per cent. in 24-Parganas. Thus about 38.6 per cent. of the total employees were concentrated in the area comprising these two places.
