Q E I

## THEOREM 14 [EUCLID I 29]

Rin pahnih in parallel rin ngil pokhatin a tan tiang chuan

- Alternate angle te chu a intia a
- a sir thuhmuna exterior angle chuan a interior opposite angle tra a ni a
- a sir thuhmuna interior angle pahnih belikhawm chuan right angle pahnih tiat a ni

AB leh CD rin ngilte hi in-parallel sela EGHF rin ngilin tan tiang rawh se Tichuan

- AGH angle chuan alternate angle GHD tia a ni a
- Exterior angle EGB chuan a interior opposite angle GHD tia a ni a
- Interior angle pahnih BGH leh GHD belikhawm chuan right angle pahnih tia a ni jih finfiahna tiat a ni

**Finfiahna** (i) AGH angle chuan GHD angle tia a ni lob chuan PGH hi GHD angle tiat a alternate angle ang ni rawh se Tichuan PG leh CD an in parallel ang (Theor 13)

Nimahsela AB leh CD chu in parallel a ruat tawh a ni si a Chuvângin rin ngil pahnih inkawkalh AG leh PG chuan CD chu an parallel ve ve a lo ni ang Chu zawng a ni thei lo Chuvângin AGH angle chuan GHD angle chuan a tia lo a ni lo va AGH leh GHD alternate angle te chu a intia a ni

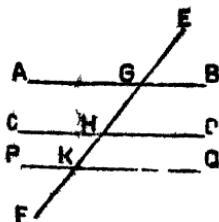

- Tia EGB angle chuan a vertically opposite angle AGH tia a ni a AGH angle chuan a alternate angle CHD tia a ni bawk a chuvângin exterior angle EGB chuan a interior opposite angle GHD tia a ni

(iii) Tin, EGB angle chu GHD angle tua a ni a lêngalte hian BGH angle belih va ve rawh Tichuan EGB leh BGH angle belih khawm chu BGH leh GHD angle belikhawm tua a ni Amah erayheha EGR leh RGH angle thiang belikhawm chu right angle pahnih tua a ni Chuvângin interior angle pahnih BGH leh GHD belikhawm chu right angle pahnih tua a ni.

Q. E. D

**THEOREM 15 [EUCLID I 30]**

Rin ngil thuhmun nén: in-parallel rin ngilte chu anmahni pawh a in parallel a ni

AB leh CD rin ngilte chu PQ rin ngil nén in parallel ve ve rawh se

Tichuan AB leh CD an in parallel a ni tih finfiah tûr a ni

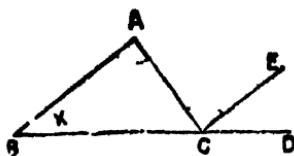

AB leh CD leh PQ te chu G te H te K point-tea tan tûrin EF rin ngil rin rawh

**Proof:** AB leh PQ an in parallel a EF rinin a suihfin avâng in AGK angle chu a alternate angle GKQ tua a ni a Tin CI leh PQ an in parallel a EF rinin a suihfin avângin exterior angle GHD chu a interior opposite angle GKQ tua a ni Chuvângin AGH angle leh GHD angle chu a intia a ni Hêngte hi a alternate angle an ni Chuvângin AB leh CD chu a in parallel a ni

Q. E. D

## THEOREM 16 [EUCLID I 3°]

Trungle engzawh a angle pathum belkhâwm chu right angle pahnih na a ni

ABC lu triangle chu ni sela Tichuan ABC leh BCA leh CAB angle pathum belkhâwm chu right angle pahnih tia a ni tih funfiah tur a ni

BC rin chu D point thlengin tisei la tin CE chu BA nêna in parallel turin C aitanga rin ni bawk rawh se

**Finfahna** BA leh CE an in parallel a AC in a suihfin avângin ACE angle chu a alternate angle CAB tia a ni

Tin BA leh CE an in parallel a BD in a suihfin avângin exterior angle ECD chu a interior opposite angle ABC tia a ni Chuvângin exterior angle pum pui ACD chu a interior opposite angle pahnih CAB leh ABC belkhâwm tia a ni

Hêng intiaahte hian BCA angle belh ve ve rawh Tichuan BCA leh ACD angle belkhâwm chu BCA leh CAB leh ABC angle pathum belkhâwm tia a ni

Nimahsela BCA leh ACD angle thiang belkhâwm chu right angle pahnih tia a ni Chuvângin BCA leh CAB leh ABC angle belkhâwm chu right angle pahnih tia a ni
